- 1.100 Any company desiring to enter into a Project Agreement for Maintenance by Contract, must appear before the General Presidents Committee (hereinafter the "Committee") for purposes of review and orientation and present to the committee written evidence of the owner's intent to engage that company in the performance of maintenance service for a minimum period of one full year, subject to the usual termination clauses in such contracts.
- 1.200 It is further understood that the Project Agreement shall not be applicable for "shutdown" or "turnaround" work except when such work is performed within the scope of full or year-round supplementary maintenance contracts. In order to implement this restriction, it is understood that on newly constructed plants or units a shutdown may occur at any time under the terms of the Project Agreement but existing plants employing this service must have been under contract for full or year-round supplementary Maintenance service for at least four months prior to commencement of the shutdown/ turnaround or such work shall be performed under the terms of the local Construction Agreement.
- 1.300 Should the contract for full or year-round supplementary maintenance be terminated during the term of this Collective Agreement for any of the projects listed, this Collective Agreement shall be considered null and void as it applies to that project or projects.

**ARTICLE 2.000 - AUTHORITY & RESPONSIBILITY OF THE COMMITTEE IN ADMINISTERING THE AGREEMENT**

- 2.100 With the Company, to interpret and administer the terms and conditions set forth in the Agreement.
- 2.200 To screen and police each company seeking use of Agreement in order to assure proper application and interpretation.

- 3.100 The bargaining unit under this Agreement shall comprise all employees of the Company, coming under the jurisdiction of the Unions signatory to this Agreement, now employed and employed in the future for maintenance, repair and renovation work at the Owner's plant site.
- 3.200 The Company and the Unions:
- 3.201 Agree that the jurisdiction recognized herein for each Union shall be the jurisdiction recognized by the AFL-CIO, provided, however, that if they or the Unions are unable to agree upon the Union which is to have jurisdiction over any group of employees, the Company will recognize one as having jurisdiction until such time as the Claimant Unions agree upon another and provided further that work considered within the jurisdiction of any Union which is not represented by the Unions listed herein may be assigned by the Company to the jurisdiction of the most appropriate Union.
- 3.202 Recognize the Unions as herein duly constituted for the purpose of bargaining collectively and administering this Agreement for the members of their respective Unions. The responsibility for interpretation and administration of this Agreement rest in the Committee.
- 3.203 Agree to bargain collectively with the Unions and to be governed by the terms of this Agreement and by all lawful settlements of disputes and grievances made pursuant thereto. On maintenance work, the Project Agreement shall govern terms and conditions and take precedence over local construction agreements or area practices.

## **ARTICLE 4.000 - UNION SECURITY**

- 4.100 All employees under this Agreement, as a condition of employment, shall be members of or secure membership in a Signatory Union and maintain such membership in good standing.
- 4.200 The Company will cooperate with the Signatory Unions in providing employment to their members and the Unions agree to assist the Company by all means in their power to secure necessary skilled and competent tradesmen.
- 4.300 The Company will contact the appropriate Union local first to secure the necessary tradesmen. However, when the Union cannot supply tradesmen within 48 hours exclusive of Saturday, Sunday and holidays, the Company may secure them from any source and immediately put them to work with advice to the tradesmen that they are employed subject to Union Agreement of Membership and/or replacement by Union Members - and advice to the appropriate Business Agent that the tradesmen are on the job.
- 4.400 It will be the Unions' responsibility to provide a referral slip to the tradesman at the Jobsite or supply a satisfactory replacement, who is a member. Tradesmen, who are employed under these circumstances (in special trades or skills or who are

trained at Company expense for special work), will not be replaced except by written request of the Union within sixty days of the date of hire and approval of the Company.

- 4.500 When the Union cannot supply qualified tradesmen within 48 hours of the date requested, then the Company may secure other qualified tradesmen who must apply for membership in the respective Unions.
- 4.600 In emergency situations, where the Company has two or more Maintenance Projects within the jurisdiction of the same Local Union, the Company shall have the right to transfer employees between projects after the Local Union has been given the opportunity to supply and has failed to do so within four hours.

#### **ARTICLE 5.000 - SCOPE OF WORK**

- 5.100 The scope of this Agreement covers all work of a maintenance, repair and renovation nature, assigned by the Owner to the Company and performed by the employees of the Company covered by this Agreement, within the limits of the Owner's plant site.
- 5.200 The scope of this Agreement does not cover work performed by the Company of a new construction nature which is work required to erect new facilities in which event the work shall be done in accordance with existing building construction agreements.
- 5.300 The Unions and the Company understand that the Owner may, at his discretion, choose to perform or directly subcontract work for any part or parts of the work necessary in his plant.

#### **ARTICLE 6.000 - DEFINITIONS**

- 6.100 Maintenance shall be work performed for the repair, renovation, revamp and upkeep of property, machinery and equipment within the limits of the plant property.
  - 6.101 "Long-Term Maintenance" shall be the continuing work performed of a maintenance, repair, renovation character within the limits of the plant property exclusive of "Short-Term Maintenance" defined below.
  - 6.102 The Company will designate the anticipated number of Long-Term Maintenance force job openings at the pre-job meeting and from time to time as job conditions warrant.
  - 6.103 "Short-Term Maintenance" work means work that is terminated within 30 available days of work.
- 6.200 All work performed by the Company on existing equipment and machinery, including all associated work in a given plant, shall be maintenance. This shall include replacement of existing individual items of machinery and equipment with new units, including all associated work. It is understood that this concept would

not include replacement of an entire process system installation in a plant in order to increase production.

- 6.300 Addition of spare machinery or equipment may be done under the Maintenance Agreement provided it is for debottlenecking purposes. Example: There are two existing pumps. Both pumps are required to run at all times to maintain full production. A spare may be added for the purpose of having one pump down for maintenance.
- 6.400 Changes to existing units for reasons of feed stock changes or fuel changes shall be maintenance.
- 6.500 The word "repair" used within the terms of this Agreement and in connection with maintenance, is work requested to restore by replacement or by revamp of parts of existing facilities to efficient operating conditions.
- 6.600 The word "renovation" used within the terms of this Agreement and in connection with maintenance, is work required to change by replacement or by "revamp" of parts of existing facilities to efficient operating conditions.
- 6.700 Fire restoration work will be administered as follows:
- 6.701 The restoration of a plant completely destroyed by fire is considered construction work.
- 6.702 The restoration of a major part of a plant including several sections which have been destroyed or damaged by fire, shall be governed by the following criteria:
- (a) The removal of damaged equipment and the preparation of the damaged area to make it suitable for new equipment will be Maintenance.
  - (b) The installation and erection of new equipment will be Construction.
- 6.703 When the fire damage is localized to a given operating unit, such as a heater, distillation tower, compressor, pumphouse equipment and the like, then the restoration of same is to be considered Maintenance.
- 6.800 The administration and interpretation of this Article is the responsibility and prerogative of the General Presidents' Committee for Contract Maintenance in Canada.

#### **ARTICLE 7.000 - GRIEVANCE PROCEDURE**

- 7.100 It is agreed that it is the spirit and intent of this Agreement to adjust grievances promptly. All grievances, including discharge for just cause, but not those pertaining to jurisdictional disputes that may arise on any work covered by this Agreement must be initiated within fifteen (15) working days of the incident by either the employee in Step I or the Local Union in Step II and shall be handled in the following manner:

- 7.101 Step I: Between the aggrieved employee and/or his Steward and the Company supervisor.
- 7.102 Step II: Between the aggrieved employee, his Steward and/or Local Union Business Representative and his Craft Foreman, the Supervisor and the Project Manager. If settlement is not achieved at this step, the grievance must be presented in writing to the Company and to the International Representative of the Union involved.
- 7.103 Step III: Between the International Union Representative and the Labour Relations Manager or the highest official of the Company.
- 7.104 Step IV: By negotiation between a committee of the Unions signatory to this Agreement and senior officials of the Company at a meeting to be held at the place of work or a mutually agreeable location.
- 7.105 Step V: If any dispute or grievance concerning the interpretation, application or violation of this Agreement cannot be settled through the procedure described above within ten (10) working days, the matter may be submitted by a Signatory Union to this Agreement or the Company, to a Board of Arbitration for adjudication. This Board shall consist of three (3) Arbitrators, one appointed by each party to this Agreement and the third, who shall act as Chairperson, to be selected by the two so appointed. The party desiring arbitration shall appoint its Arbitrator and shall give notice in writing to the other party together with a written statement of the question to be arbitrated. In the event that the other party does not appoint its Arbitrator within three days the appointment shall be made by the Minister of Labour for the Province in which the grievance occurs.

In the event the two Arbitrators appointed cannot within three days select a third Arbitrator who is willing to serve, the two Arbitrators shall jointly request the Minister of Labour of the Province in which the grievance occurs to designate the third Arbitrator who shall act as Chairperson. This Board when selected or appointed will proceed as soon as practicable to examine into the dispute or grievance and on the basis of the facts, render its judgment. The majority or unanimous decision of the Board of Arbitration shall be final and binding and accepted by both parties for the duration of the Agreement.

In the event that a majority decision is not reached by the Board of Arbitration, the decision of the Chairperson shall be deemed to be the decision of the Board and shall be final and binding and accepted by both parties for the duration of the Agreement.

The Arbitration Board shall not be authorized to make any decisions inconsistent with the provisions of this Agreement, nor to alter, modify or amend any part of this Agreement.

In arbitration proceedings, each party shall pay the expenses of its Arbitrator and the expenses of the Chairperson shall be shared equally by the parties.

The Company shall provide the necessary facilities for the grievance meetings.

7.200 Grievance forms will be provided by the Company at the jobsite.

#### **ARTICLE 8.000 - JURISDICTION**

8.100 Project maintenance conditions do not always justify adherence to craft lines which, in itself, does not establish precedent or change the appropriate jurisdiction of the crafts involved. Composite crews may be formed where conditions warrant, but this is not to be construed under regular operating conditions as the Company's prerogative to assign employees out of their usual skill classification.

8.200 The Company may, if it desires, maintain a variety of skills within its group of employees to be prepared to have skills and/or supervision for any type of work that may arise.

8.300 It is understood that all employees will work together harmoniously as a group and as directed by the Company.

8.400 In the event that any jurisdictional disputes shall rise between two or more Unions represented by this Agreement, an immediate assignment of the work in question shall be made by the Company representative, based upon decisions and agreement of record or other information available. The work is then to continue and, if any of the Unions involved are not satisfied with the assignment, the matter shall be referred to the International Office of the Unions involved for a project decision.

8.500 The Company and the Unions agree that such assignment of work involved in a jurisdictional dispute is imperative to the satisfactory operation of this Agreement and the continued operation of the Owner's plant.

#### **ARTICLE 9.000 - UNION REPRESENTATIVES**

9.100 Representatives of the Unions shall have access to the job during working hours on Union business. They shall, as regulations of the plant permit, obtain specific authorization from the Company for each visit.

#### **ARTICLE 10.000 - STEWARD**

10.100 Each Union signatory to this Agreement may appoint or select one (1) working Steward from among the Company employees to act as a representative of the Union in connection with Union business. Each Union may also appoint an acting Steward for afternoon or midnight shifts. These Stewards shall be allowed reasonable time to conduct Union business related to this project. The Business Manager of the applicable Local Union shall be consulted in advance of the termination of the Steward.

10.200 Steward designations must be confirmed in writing to each job superintendent in order to allow recognition of Steward's privileges.

10.300 The Steward shall not be discriminated against and shall receive his fair share of overtime work for which he is qualified.

- 10.400 At lay-off the appointed steward will be one of the last three (3) employees on the job, provided he is qualified to perform the work at hand and meets all site safety requirements.
- 10.500 Notwithstanding the remainder of this Article, a Job Steward who is a short-term employee may be laid-off when the assignment for which he was hired is completed.

#### **ARTICLE 11.000 - REFERRAL OF TRADESMEN**

- 11.100 Maintenance work that the Company performs involves maintaining operating units that in almost all cases must be kept running. This situation means that much of the work is of an emergency nature and therefore, will require at times the acceptance of extreme fluctuations in the labour demands made by the Company on the Unions. The Unions, by this Agreement, completely understand the necessity of these extremes and agree to make every effort to fulfill the manpower requirements of the Company.
- 11.200 When employees are required, the Company shall request that the required number of applicants be referred for employment under the following minimum standards. Such requests to the Union Hall will be made and/or confirmed by facsimile.
- 11.201 The Local Union Business Representative will be contacted by the Company on all occasions when tradesmen are required and the Company shall state that the tradesmen are required for maintenance work, and also state:
- (1) whether they are to be day rated, short shift, long shift or Compressed Work Week employees.
  - (2) whether they are to be initially employed on Long-Term or Short-Term Maintenance as defined herein.
- 11.202 The Company will use its best judgment in advising the Local Business Agent of type of work (ie. day rate, shift, etc.) and if employee is to be assigned to Long-Term or Short-Term Maintenance work.
- 11.203 The Union representative shall, to the best of his ability, supply qualified tradesmen to perform the work described under this Agreement.
- 11.204 For just and sufficient cause, the Company shall retain the right to reject any applicant referred by the Union.
- 11.205 The Company will be allowed the same ratio of name hire and recall as provided for in the respective Local Agreements.
- 11.300 The designation and determination of the number of foremen on maintenance work shall be the prerogative of the Company. Foremen may be requested to work with the tools, when in the Company's opinion, it is advisable.

- 11.400 Tradesmen referred to the job by the Local Union Representative, shall report to the Employment Office established for the project. The Company will provide affected Job Stewards with a copy of referral slips on a timely basis.
- 11.500 The company may transfer employees to projects where forces are being increased. Transfers are not permitted to displace existing employees. Affected Local Unions will be notified of all transfers.
- 11.600 When employees are absent from work and do not inform the project supervisor of the reason for their absence such employees may be disciplined.
- 11.700 The parties to this Agreement recognize the importance of apprenticeship to the maintenance industry. The parties agree to support, wherever practicable, the employment of apprentices on maintenance projects to reflect acceptable reference agreement ratios.

### **ARTICLE 12.000 - WAGES**

- 12.100 Wages are to be paid as follows:
- 12.101 Employees on Long-Term Maintenance and Short-Term Maintenance work shall be paid according to the attached Wage and Benefit Schedule.
- 12.102 Employees on Long-Term Maintenance, Compressed Work Week shall be paid according to the attached Long-Term Maintenance, Compressed Work Week Schedule, for shift work only. Overtime worked shall be paid in accordance with the Schedule of Rates on Long-Term Maintenance.
- 12.200 Fringe Benefits will be paid according to the attached Schedule of Wages and Benefits.
- 12.300 Management Association funds, discretionary funds and premium for high or low work, hazardous work, dirty work, acid work and other similar fringes are excluded from this Agreement. The contribution to the U.A. Canadian Training Trust Fund is required under this Agreement.
- 12.400 In the event that local agreements terminate and no agreement is reached regarding wages, the Company, in order that continuity of work shall be maintained agrees as follows:
- 12.401 Should a work stoppage occur in negotiating the local Agreement, the employees of the affected Unions will be paid the appropriately adjusted wage rate negotiated in the new Agreement, on a retroactive basis to the date of the work stoppage or the effective date of the new wage rate whichever is the earlier. This is to ensure against any work stoppage on this project which would be caused by a breakdown of local negotiations.
- 12.402 Should no work stoppage occur in negotiating the local Agreement, the employees of the affected Unions will be paid the appropriately

adjusted minimum wage rate negotiated in the new Agreement on the effective date of the new wage rate.

- 12.500 Wages will be paid weekly by cheque or electronic deposit. The payroll period will generally close at 12:00 midnight on Saturday, however, in order to meet the job requirements the Company may close the payroll earlier. This will be established as a job condition and those affected so notified. Wages will be distributed not later than the following Thursday before the end of the shift except during a week when a Statutory Holiday falls on a Monday in which case wages will be distributed no later than the following Friday before the end of the shift.
- 12.501 Employees who are laid off or terminated from the services of the Company, shall normally receive their final wages, vacation pay due, employment insurance record of earnings, and apprenticeship books, before they leave the jobsite.
- 12.502 It is recognized that there will be certain occasions when the above procedure is not possible. In these cases final wages, vacation pay due, employment insurance record of earnings will be mailed to the employee's last recorded home address within three (3) working days, exclusive of Saturday and Sundays and Statutory Holidays.
- 12.503 Should the wages, vacation pay, and employment insurance record of earnings not be mailed within this time period the Company will pay a penalty of two hours per day until the mailing is made.
- 12.504 Complaints/grievances with respect to non-receipt of wages, vacation pay due and employment insurance record of earnings must be raised on a timely basis, in any event not more than ten (10) working days, exclusive of Saturday, Sunday and Statutory Holidays from date of lay-off/termination

#### **ARTICLE 13.000 - DAY WORK CONDITIONS**

- 13.100 Eight (8) hours per day shall constitute a standard work day between the hours of 7:00 a.m. and 5:30 p.m. Forty (40) hours per week shall constitute a week's work, Monday to Friday inclusive.

As an option a ten (10) hour day, 4 day work week, Monday through Thursday and/or Tuesday to Friday may be established. Start times may be staggered two (2) hours between 7:00 a.m. and 9:00 a.m. as above. The ten (10) hour system must operate for a minimum period of four (4) consecutive days before it is established as the regular hours of work. Once established it becomes the regular hours of work for those so assigned.

The noon unpaid lunch period will be one half ( $\frac{1}{2}$ ) hour and may be staggered one (1) hour either way to accommodate production schedules and emergencies.

- 13.202 Four (4) Ten (10) Hour Day Option.
- When the four (4) ten (10) hour day option is being worked, all hours in excess of ten (10) hours on any of the four (4) days will be paid at doubletime (2). When the Monday or Friday is worked, the first ten (10) hours will be at time and one-half (1-½) and all hours in excess of ten (10) hours will be at doubletime (2).
- 13.300 In no case shall overtime rates exceed double the hourly rate shown on the attached schedule.
- 13.400 Payment for the Statutory Holidays, as listed in Article 18.000 of this Agreement, shall be in accordance with attached schedule.
- 13.500 Overtime meals on day work conditions are as follows:

## **ARTICLE 14.000 - SHORT SHIFT CONDITIONS**

- 14.100 A Short shift system may be established when it is intended to operate the shift for less than sixty (60) calendar days. Short Shifts may be established on an eight (8) or ten (10) hour per day work week arrangement pursuant to Article 13.100.
- 14.101 Shift employees may be scheduled on a one-shift basis: afternoons, midnights; two-shift basis: days-afternoons, afternoons-midnights, midnights-days, or on a three-shift system.
- 14.102 The establishment of a one, two or three shift system under this Article does not affect the Company's ability to continue to operate regular Day Work Conditions as specified in Article 13.000 or Long Shift Conditions as specified in Article 15.000 for other employees so assigned.
- 14.103 Each shift employee must be scheduled for three (3) consecutive work days and may be scheduled for five (5) or seven (7) days per week, except that when Saturdays or Sundays are worked they shall be paid at applicable overtime rates.

- i) Number of hours per cycle x number of cycles per year = NUMBER OF ACTUAL HOURS PER YEAR.
  - ii) Number of actual hours per year minus number of hours in a standard year = NUMBER OF OVERTIME HOURS PER YEAR.

- iii) Number of overtime hours per year x overtime premium x long term rate = TOTAL OVERTIME DOLLARS.
  - iv) Standard hours per year x long term rate plus total overtime dollars (divided by the actual hours of work per year) = COMPRESSED WORK WEEK OVERTIME RATE.
- 17.505
- i) A year is defined as 364 days (52 x 7).
  - ii) A standard year is 2,080 hours (52 x 40).
  - iii) Total hours per cycle is defined as the sum of the hours worked on all days in cycle.
  - iv) Number of cycles = NUMBER OF DAYS IN A CYCLE DIVIDED INTO 364.
  - v) Number of hours on shift per cycle = SUM OF THE HOURS WORKED ON ALL AFTERNOON OR NIGHT SHIFTS DURING A CYCLE.
  - vi) A cycle is defined as the number of days, including scheduled days off, before the schedule repeats itself.
- 17.506 The midday lunch period of ½ hour on workdays of ten hours or less between the hours of 7:30 a.m. and 7:30 p.m. will be unpaid.

In all other instances there shall be two (2) one-half hour meal breaks per twelve hour shift.
- 17.508 The establishment of a shift system under this Agreement shall not affect the Company's ability to continue to operate regular "Day Work Conditions" as specified in Article 13.000, "Short Shift Conditions" as specified in Article 14.000, or "Long Shift Conditions" as specified in Article 15.000, for those employees so assigned.

If less than forty hours is worked in the calendar week, missed hours on the initial schedule will be paid but only to the extent that straight time hours on the new schedule in the calendar week plus hours worked on the old schedule in the calendar week plus missed hours on the initial schedule does not exceed forty.

17.511.3 The penalty of Clause 17.511.2 will not apply if the employee completes his regular work days on his initial schedule up to the scheduled days off, receives his scheduled days off or paid applicable overtime, if he works on his scheduled days off, and is given at least eight hours notice of shift change.

17.511.4 Earned days off on a Compressed Work Week are days which are scheduled as regular days off and are earned when regular scheduled consecutive work days immediately preceding have been worked.

If a fraction of the regular work days are worked the same fraction of the immediately following regular days off are earned. Any fraction of a day shall be considered one day when calculating earned days off.

When an employee is transferred to a different shift schedule all scheduled days off which have been earned must be given to the employee prior to the start of his new schedule. If earned days off are worked they shall be considered overtime and paid the applicable overtime rate as per Article 13.000 Day Work Conditions.

20.103 If work which can be done under reasonable and safe conditions cannot be found for all the craftsmen, then those who cannot be gainfully employed will be allowed to leave the job. The Company at this point will endeavour to find work for all craftsmen by rescheduling and altering the planned work, if so required.

20.104 If at this stage the craftsmen still refuse to go to work, the Superintendent will instruct the Foreman and Steward of the craft that they are to contact the Business Agent or his immediate superior and report that the craftsmen have refused to go to work.

## EXAMPLES SECTION

CASE I - An employee who works from 8:00 a.m. to 4:30 p.m., and is called in at 1:00 a.m. and works until 3:30 a.m., then resumes his regular shift at 8:00 a.m., would be paid overtime for the hours worked from 1:00 a.m. to 3:30 a.m., but would be on straight time for 8:00 a.m.

The employee had a continuous 8 hour break between the end of one regular shift (4:30 p.m. to 1:00 a.m.) and the beginning of the next.

CASE II - An employee who works from 8:00 a.m. to 4:30 p.m., and is called in at 11:00 p.m. and works until 2:00 a.m., then resumes his regular shift at 8:00 a.m., thus has not had a continuous 8 hour break between the end of one shift and the beginning of the next. The employee is entitled to overtime from 8:00 a.m. onwards until an 8 hour break occurs, or alternately and preferably the employee may be instructed not to report until 10:00 a.m., ie., so that he has an 8 hour break. In this event the "2, 4, 8 hour" pay clause would apply and the employee would receive 8 hours pay for that day even though he reported back to work at 10:00 a.m. For call ins on Sunday, which precede and may become continuous with regular work day Monday morning, the following rules will apply:

- (1) The employee must have 8 continuous hours off in the 24 hour period immediately preceding 8:00 a.m. Monday morning.
- (2) The employee should not work more than 16 hours without an 8 hour break.

CASE I - Therefore, if an employee is called in at 4:00 p.m. Sunday and works until 1:15 a.m., he should report for work at 8:00 a.m. and be paid straight time, as he had an 8 hour break in the 24 hour period preceding 8:00 a.m. Monday.

CASE II - An employee should not work more than 16 hours and must take an 8 hour break before continuing work. Therefore, an employee called in at 7:00 p.m. Sunday could work until 11:00 a.m. Monday, 16 hours. The employee would be paid doubletime from 7:00 p.m. until 8:00 a.m. The employee would revert to straight time at 8:00 a.m., until 11:00 a.m. The employee would then be sent home at 11:00 a.m. and paid 8 hours for Monday (8:00 a.m. to 4:30 p.m.). Employees working long call ins that approach regular starting time on Monday, should be given the option of remaining at work and taking advantage of the 16 hour rule. In other words, it is unfair to send the employee home at 7:00 a.m. after working 10 hours, and expect him to be back at 8:00 a.m. to be paid straight time.

Case III - In another case an employee is called in at 2:00 p.m. on Sunday and works until 2:00 a.m. The employee would be instructed to take an 8 hour break and report at 10:00 a.m. Monday and be paid for the day at straight time, as the employee did not have a continuous 8 hour break in the 24 hour period from 8:00 a.m. Sunday to 8:00 a.m. Monday.

**Subject: Mosaic Colonsay**

Dear : Stephen Smillie

Further to our letter of 2007-06-20 we have reviewed the daily allowance policy for the Colonsay project to help defray transportation costs for

- Local area employees who reside permanently in Saskatoon or less than 100 km from the project.
- Employees who do not reside in Saskatoon or live beyond 100 km from the project.

Considering the location of the project and the increased transportation expenses, it is deemed appropriate for Jacobs to pay \$45.00 per day worked to employees who fall within the parameters highlighted in the previous identified paragraph. However, those employees who reside within 30 km of the project will not be entitled to the daily allowance.

The Colonsay living away policy for non-local employees will be applied as follows

- Applies only to non-local employees.
- Employees who are residents of Saskatoon or less than 100 km from the project, by the shortest route are not entitled to the living away expenses.
- The amount of the living away expenses is \$60.00 per day worked.
- There is an understanding between Jacobs and the Building Trades/GPC that local hires will receive preference of dispatch when manpower orders are placed at the respective local unions.

An employee's residence means an employee's permanent self-contained domestic establishment (a dwelling place, apartment, or similar place of residence where a person generally sleeps and eats) in which he normally resides preceding the date of hire for the project. Original documents (not photocopies) are required for proof of residence. They will be verified by Jacobs, copied and returned. Two (2) of the following are acceptable.

- Income Tax Assessment
- Property Tax Assessment
- Insurance
- Utilities Receipts

Employee(s) who hire on as local hires and relocate outside of the 100 road kilometers from the project will not be entitled the transportation cost of \$45.00 nor the living away expenses of \$60.00.

The transportation policy and living away policy will be reviewed on an as required basis and may be adjusted to reflect market and economic conditions.  
This change in policy is effective October 31, 2010.

Yours truly,

Jacobs Industrial Services Ltd.

Dear Sir:

During our visit to IMC Potash Esterhazy on Wednesday July 15, 1998 there was discussion regarding the Jacobs' Living Away Policy which applies to the IMC Potash Esterhazy project. Since our clarification letter dates 1997-11-03 there have been several issues arise which need incorporation into the policy. As such, the following is provided for your information:

- (1) Living Away Expense Policy:
  - (a) Applies only to non-local employees.
  - (b) Employees who are residents of Esterhazy, Yorkton or live less than 100 road kilometers from the project, by the shortest route, are not entitled to the living away expenses.
  - (c) The amount of the living away expenses is \$80.00 per day worked.
  - (d) There is an understanding between Jacobs and the Building Trades/GPC that local hires will receive preference of dispatch when manpower orders are placed at the respective local unions.
  - (e) An employee's residence means an employee's permanent self-contained domestic establishment (a dwelling place, apartment, or similar place of residence where a person generally sleeps and eats) in which he normally resided preceding the date of hire for the project.

Original documents (not photocopies) are required for proof of residence. They will be verified by Jacobs, copied and returned. Two (2) of the following are acceptable:

- Income Tax Assessment
- Property Tax Assessment
- Employment Insurance
- Utilities Receipts

- (f) Employee(s) who hire on as local hires, as per (b) and relocate outside 100 road kilometers from the project during their employment will not be entitled to the living away expenses of \$80.00 per day worked.

- 2) United Association Canadian Training Trust Fund is paid at ten cents (\$0.10) per hour.
- 3) The Company commits to continue its practice to ensure that those working on long call-ins that proceed into the regular work day receive fair and consistent treatment, taking into consideration fatigue and safe work practices.
- 4) Articles 13.500 and 14.400 (**Mosaic Belle Plaine Site only**) are amended to provide that employees working the 9/80 schedule and assigned to work overtime on an integrated basis with Mosaic employees will have the time of their overtime meal break harmonized with those in-plant employees they are working with.
- 5) The Parties agree to investigate the establishment of an incentive payment program in order to improve the commitment and retention of the long term maintenance work force.

**APPENDIX 'D'**

**9/80 WORK WEEK SCHEDULE ALTERATION**

The following work week is approved as an option to the existing work week provisions at Mosaic Belle Plaine. The work week averages to 40 hours straight time over a two week period and is generally known as the 9/80 schedule. It is intended for on-going work and does not operate in major shutdown situations.

1) The Work Week:

The regular work week will consist of four (4) nine (9) hour straight time days Monday to Thursday and one (1) eight (8) hour straight time day on Friday in the first week.

The regular work week will consist of four (4) nine (9) hour straight time days Monday to Thursday in the second week. Friday is a scheduled day off.

2) Overtime to be paid as follows:

Week "1" Time and one half (1 ½ ) for the first two (2) hours worked before or after the regular nine (9) or eight (8) hour work day Monday to Friday – Double time will be paid thereafter.

Week "2" Time and one half (1 ½ ) for the first ten (10) hours worked on the scheduled Friday off – All other overtime is double time.

3) In Chart Form For Clarity:

	M	T	W	TH	F	S	S	M	T	W	TH	F	S	S
REG HRS	9	9	9	9	8			9	9	9	9			
DAYS OFF						OFF	OFF					OFF	OFF	OFF
O/TIME PYMNTS	2 HRS 1 ½	2 HRS 1 ½	2 HRS 1 ½	2 HRS 1 ½	2 HRS 1 ½	DT	DT	DT	DT	DT	DT	10 HRS 1 ½	DT	DT
TOTAL REG HRS	44 HRS							36 HRS						

4) Clarifications:

- o Total regular hours for a two-week period are 80.
- o If a Statutory Holiday falls on a Friday earned day off it will typically be observed on the following Monday, however, the holiday may be observed on the preceding Thursday to align with the client organization. If employees are asked to work on the Monday or Thursday they will be paid at applicable overtime rates.
- o It should be noted that employees working more than 10 hours are entitled to an overtime meal and break at the 10 hour mark pursuant to the overtime meal articles in the agreement.
- o The modified work schedule will revert to the standard GPA conditions for major shutdown work.
- o If an employee has just completed a 44-hour work week and is transferred to another department that is starting a 44-hour work week, the employee will be paid applicable overtime if they are requested to work the Friday.

- If an employee has just completed a 36-hour work week and is transferred to a department that is starting another 36-hour work week, then only 36 regular hours will be accumulated. There is no commitment to working employee 40 regular hours for this week.
- If employees are transferred to another department mid week, then their current shift schedule needs to be maintained e.g., 4 x 10 to 9/80, the 4 x 10 schedule would need to be maintained and vice-versa.
- If employees are transferred to an alternate schedule for longer than 1-week duration they will need to be transferred to the new schedule in order to align with current overtime conditions.
